ANTI DOPING IS YOUR RESPONSIBILITY

Medications may have banned substances in them. Check all medications on the Sport Integrity app.

All athletes are responsible for what substances they put into their own bodies - they can't blame anyone else, however if a coach has supplied the substance, penalties also apply to the coach.

Supplements are a huge risks. Research shows 1 in 5 contain a banned substance not listed on the label. Find low risk supplements on the Sport Integrity app. If it's not listed, don't risk it.

As a member of your sport, you are bound by an Anti-Doping Policy and potentially subject to investigation.

There are rules that you and your athletes must follow under your sport's Anti-Doping Policy. Details are in the Sport Integrity app menu under 'Know the rules'.

Anti-doping education should not be a 'tick the box' exercise - it should be an ongoing conversation with your athletes.

If you are involved in a team sport, and an athlete tests positive to a banned substance, the team could lose competition points and championship placings.

Breaking the rules could result in a ban of up to four years from ALL sport - no training, no playing, no coaching.

Learn more about the sample collection process via our Virtual Reality anti-doping test experience. Found in the menu of the Sport Integrity app under 'Tools'.
