The maximum number of rounds where points can be used for the series calculation is equal to the number of rounds used for qualification. For clarity, the maximum number of rounds for the Tasmanian State Series is Four (4) and must attend at least one (1) round held at each club.

5.1 RIDING UP

For State/Territory Series rounds, competitors may ride up into certain categories. If riding up the rider **will not receive** Series Points. All Riding up & Merging regulations will apply as per [2.01 AusCycling Racing Regulations](#). In the case of Participation classes when a rider progresses from Mini Wheelers to Sprockets the total number of rounds will be combined. Specifically, this can be done in accordance with the [AusCycling Technical Regulations](#).

5.2 MERGED CATEGORIES

In the scenario where categories have been merged at an event (for whatever reason), points will be awarded to the rider as per the entered category of the rider. For example, if a rider is merged into a category and is placed third in that category but is the first finisher in their entered age category, they will receive first place points. **(Note: as per individual hosted round, it is awarded by raced category)**

5.3 TIE BREAK

When competitors share the same number of total series points ties will be broken using the following method:

1. The competitor with the highest number of points earned, in a single event, that counts towards their series total, is awarded the better rank.
2. If still tied, the next highest points for each rider are compared, and so on, until all events that contribute to their series total are exhausted.
3. If still tied, the riders will receive the same series placing.
