Ponderosa Ramble	51km	1	10:20 AM
Presentations- All			2:00 PM

Rider Registration

All entries are to be taken online prior to the event (closes April 22), there will be no ON THE DAY entries available. Riders are to pick up numbers/transponders during the Packet Pick Up times listed above.

Membership Requirements

To qualify for a National Championship, you must have an Annual AusCycling Race Membership (Off-Road or All-Discipline). Event/Day license holders are not eligible for National Championship awards, but can ride the Ponderosa Ramble.

Medical Coverage

Professional medical services will be provided by Royal Flying Doctor Service. They will be onsite and dispatched on course as needed. In case of a serious emergency, please call 000 and Race Command (Jeff Corbett: 0418 434 814).

Local Hospital

Mount Pleasant District Hospital (28 Hospital Rd, Mount Pleasant SA 5235) is the nearest hospital. The Lyell McEwin Hospital is the nearest major hospital.

Results

The event will be timed, recorded, displayed, and publicised by AusCycling. Results will be available [online](#).

Amenities & Vendors

There will be portable toilets at the Ponderosa Campground. Food trucks will be at the Ponderosa Campground with coffee on site by 7:30am.

Water

Access to water is limited on the Mount Crawford Forest. We will provide water for participants, however, please bring what you expect to need on the day.

Spectator Viewing

The Ponderosa Campground makes for ideal spectating as it allows fans to see racers start, pass through after 20km, and again at the finish. For racers doing 2 laps, this means fans get to see them 5 times. Spectating on other parts of the course is permitted, but only by bike unless you travel outside the forest on boundary roads and then walk or ride onto Forestry SA land.

Section Three – Venue Details

Start/Finish Village Map

Course Map

Details can be found [HERE](#)

And below in this document. Appendix A

Section Four – Competitor Information

Rules & Regulations

The event will be conducted under the guidance of the [AusCycling Technical Regulations](#) plus UCI Technical Regulations, both General and Gravel specific.

Competitor Responsibilities

Participants shall:

- Obey instructions from the Event Organisers, Commissaires and event marshals/officials.
- Employ correct etiquette and ride safely in all situations.
- Be required to wear minimum safety gear including appropriately approved helmet.

- Ensure that their bicycle is in good working order.
- Ensure they have adequate supply of water, sports drink and nutrition as required for the activity they are to participate in.
- Be responsible for ensuring they are fit enough for the activity.

Presentations

Presentation ceremonies will take place at Ponderosa Campground at 2:00 PM. All riders who finish 1st to 3rd in the Elite category or 1st to 3rd in all other categories must be present at the presentation ceremony.

Prizing

All National Championship Categories will have National Championships medals presented to the top 3 finishers eligible for that Age Group or Category, and the first-placed Australian rider will be presented with the Australian National Champion Jersey.

In the Elite Men and Elite Women Categories, the top 3 finishers will receive additional prizing provided by Ironclad Co.

Neutral Race Support

Shimano will be on site for mechanical support (pre-race only).

Race Numbers/Transponder

Riders will be issued a handlebar plate, one bib number, and a transponder at registration.

Frame Plates and Bib Numbers MUST NOT be cut, folded, or modified in any way.

Bib Number must be attached to the rider's lower back and be clearly visible from directly behind the rider during the event.

Transponders must be positioned on the fork blade (either side is acceptable).

Any rider who fails to return their transponder will be charged \$125.

Equipment Requirements

Compulsory Items

Riders are expected to carry a spare tube in addition to the tools necessary to repair their bike if required. This is due to the remote nature of the event and limited vehicle access.

Helmets

All riders are required to always wear a compliant helmet whilst on their bike. Helmets must be always fastened whilst on a bicycle. Helmets must be in good condition. All helmets must be compliant as determined by the presence of an appropriate compliance sticker. To ensure all riders comply with the regulations and their helmet meets current safety standards, helmets may be inspected by a Commissaire at any time throughout the duration of the event.

Bikes

There is no restriction on the type of bike that can be used for gravel racing, however:

- Bikes must have two working brakes.
- Riders are expected to complete the race with the same frame, forks and wheels as at the start.
- Handlebars can be of any shape but must be of a one-piece construction with no bar-ends or clip-on extensions allowed (triathlon handlebars and any other handlebars extension system are forbidden).
- Neutral Service will be available at the Start, but not on course. Static support is only permitted in the Tech Zone, but bike swaps are not permitted.

Other Equipment

Riders are expected to be self-sufficient whilst racing. It is recommended riders carry:

- Adequate water for hydration
- Basic first aid kit
- Adequate food/nutrition
- A map (actual or electronic)

Aid Stations

There are 2 places on course riders may receive aid.

Tech/Feed Zone – This area is near the end of the Western Loop and is the only area where support crews may feed or service their riders (feed and mechanical support). 1 Lap riders will pass through at approx. 20km while 2 Lap riders will pass through at 20km and again at 71km.

*Mechanical support permitted is service only, no bike or wheel swaps

Spaghetti Western Aid Station- Located on Eastern Loop, neutral drinks will be available, but riders must stop to receive them or to refill.

1 Lap rides will pass through at 26.5km and 2 Lap riders will pass through at 26.5km and 77.5km.

Severe Weather Guidelines

When looking at weather conditions, the safety of the athletes, spectators, staff, and volunteers is the utmost priority. While often providing an additional challenge, adverse weather in its extremes may result in hypothermia, heat exhaustion or other dangerous conditions. In all cases the event will follow the AusCycling Extreme Weather Guidelines and advice from BOM/CFS/Emergency Services.

Doping Control

All competitors may be subject to anti-doping testing under AusCycling and Sport Integrity Australia regulations.

Therapeutic Use Exemption (TUE)

A TUE is an exemption that allows an athlete to use, for therapeutic purposes only, an otherwise prohibited substance or method (of administering a substance). TUE approval may protect athletes from receiving a sanction if a prohibited substance is found in their sample.

Who needs to complete a TUE in-advance for Cycling? Athletes who are:

- Competing in the Elite and U23 categories
- A member of the Registered Testing Pool, National Testing Pool or Domestic Testing Pool
- A member of a national open team/squad including athletes with a disability planning to compete at the Elite National Championships

If you are currently taking any medication, please check whether this substance is banned in or out of competition [here](#). Further information on the TUE process can be found on the Sport Integrity Australia (SIA) website [here](#) or by calling 1300 027 232.

Sport Integrity Australia App

Any athlete and official can download the SIA app. The SIA App has been designed with athletes in mind. The App gives a complete list of all supplements sold in Australia that have been screened for prohibited substances by an independent laboratory. The testing and certification of sports supplements cannot provide athlete's a 100% safety guarantee but does significantly lower the risk of a positive test. For non-tested supplements the App gives athletes access to a quiz to assess the risk posed by highlighting key risk factors. The App can also be used to report doping, check if a medication is banned in sport, give SIA feedback on testing missions, and complete online education modules.
