5 SERIES POINTS CALCULATION

Series points will be calculated by adding the total points earned on each stage and adding all bonus points earned, per rider.

5.1 COMBINED/DIVIDED CATEGORIES

In the scenario where categories have been combined at an event (for whatever reason), points will be awarded separately. For example, if Women's C and Women's D have combined into one race, the combined result will be separated into a result for each category, with the full Series Points allocation applied to each.

5.2 TIE-BREAK

Should any riders finish on the same number of points at the end of the series, the tie will be broken by way of countback as follows:

- The number of 1st places achieved.
- The number of 2nd places achieved.
- The number of 3rd places achieved.
- The number of races started.

Should the tie remain after the countback, the riders will receive the same placing in the Series.

5.3 CRITERIUM TIMING REGULATIONS

All competitors must complete the criterium stages.

- Lapped rider must be withdrawn officially by race officials for the above standard to be implemented and an officially withdrawn rider is considered to have completed the stage and is permitted to continue in next stage.
- Rider withdrawing from race under their own will be considered as retiring and will be classified as a stage DNF and is not permitted to continue in the next stage.
- In the case that a rider is pulled from the event they will be given the final time of the final finisher plus calculated additional time.

The calculated time will be implemented as follows:

Winners Average lap time: 3:15

Winners Average lap in secs 195 seconds

Time Behind of final riders: +10 seconds

Rider A pulled at 2 laps. The 110% rule applies = 214 seconds, The Final Rider is 10 seconds behind. Rider A is 3:34 down on GC.
