

# Examining Alternative Mountain Bike Competition Formats

## Background

- Currently beginning to look at piloting alternative competition formats for Mountain Bike.
- Examining this based on review of international practices and changing community interest in competition.
- Mountain Bike appears the ideal place to test pilot concepts.
- This would be ideally with clubs who would look to work with AusCycling on their delivery. AusCycling would support with: resources, funding, equipment, marketing. This is supported through Australian Sports Commission Play Well Funding.

Are there unique  
formats we should  
be considering?

What would be  
critical to a club to  
pilot?

# Questions and Discussion.

Thank you
