

Road Event Distance Exemption Application

Maximum race distances shall apply to all levels of road events, including Road Races, Time Trials, and Criteriums (except for non-championship criteriums, where the road race distance shall be considered the maximum distance). Specific maximum distances are outlined in section 1.01.13 of the [AusCycling Technical Regulations \(Road\)](#).

Process

- An event that seeks to go over the maximum distances for any category must make an application to offer the longer distance event through AusCycling by filling in and returning this form.
- When events are listed for Junior 19 riders to compete with the elite category, and the distance advertised exceed those listed for the J19 category then this application must be completed and returned to AusCycling. Each participating J19 will also need to complete and return the corresponding [J19 distance exemption form](#).
- When Masters categories are combined (including with elite) then the maximum distance for the younger category shall apply. This will automatically exempt the maximum distance for riders in the higher (older) age category.

Event Name: _____

Event Date: _____

Category/Categories/Format: _____

Proposed Distances: _____

Neutral Start Distance (if applicable): _____

Expected Bunch Size (mass start): _____

Please attach

- Course Profile
- PCP report and results from last edition (if available)

Review Considerations

When review AusCycling will consider the following factors

- Reasonably expected weather conditions: Hot/cold weather can have a significant effect on the rider's ability to cover distance
- Age/Ability: Ages U17 and below riders are unlikely to be approved for exemptions.
- Level of event: Exemptions will only be considered for road events which are State/Territory Level and above.
- Tradition

Application

When completed forward this form to road@auscycling.org.au a minimum of 14 days before the event that is being applied for.
