# ANTI DOPING IS YOUR RESPONSIBILITY

Medications may have banned substances in them. Check all medications on the Sport Integrity app.

---

All athletes are responsible for what substances they put into their own bodies - they can't blame anyone else, however if a coach has supplied the substance, penalties also apply to the coach.

---

Supplements are a huge risks. Research shows 1 in 5 contain a banned substance not listed on the label. Find low risk supplements on the Sport Integrity app. If it's not listed, don't risk it.

---

As a member of your sport, you are bound by an Anti-Doping Policy and potentially subject to investigation.

---

There are rules that you and your athletes must follow under your sport's Anti-Doping Policy. Details are in the Sport Integrity app menu under 'Know the rules'.

---

Anti-doping education should not be a 'tick the box' exercise - it should be an ongoing conversation with your athletes.

---

If you are involved in a team sport, and an athlete tests positive to a banned substance, the team could lose competition points and championship placings.

---

Breaking the rules could result in a ban of up to four years from ALL sport - no training, no playing, no coaching.

---

Learn more about the sample collection process via our Virtual Reality anti-doping test experience. Found in the menu of the Sport Integrity app under 'Tools'.
